

Global Health Scholars Day Abstract Submissions Sought

Global Health Scholars Day from 12-3 p.m. on Friday, May 12, showcases the excellent work being done by the IU community to improve the care of patients worldwide, research the complexities of global health, and educate learners about the care of local and global populations.

The event, sponsored by the IU Center for Global Health, will take place at the Regenstrief Social Hub on the IUPUI campus. It will include Internal Medicine Global Health Grand Rounds, poster presentations and the opportunity for those interested in global health throughout the university to network and share information. Posters invited in the following categories: education, service/care, research and case reports. Submit abstracts by March 31. The event is open to all members of the IU community.

Join Indiana CTSI Global Health Retreat at Notre Dame

The 2023 Indiana CTSI Retreat will be held in a hybrid format at the University of Notre Dame on Wednesday, March 8. The retreat focuses on "Indiana's Impact on Global Health."

Sharon M. Moe, MD, and Sarah E. Wiehe, MD, MPH, co-directors of the Indiana CTSI, will open the day. Other IU faculty presenting include: Molly Duman Scheel, PhD, presenting on the Midwest Center of Excellence for Vector-Borne Diseases; and Sherri Bucher, PhD, presenting on health technology development.

Reciprocal Innovation Planning Grants Due March 30

Applications for Global Health Reciprocal Innovation Planning Awards are due March 30. This award is designed to provide preliminary support, up to \$10,000 for one year, for investigators to establish partnerships, develop project teams, identify promising health innovations for demonstration and other activities needed to prepare competitive demonstration grant applications for reciprocal innovation.

The award is open to principal investigators from Indiana CTSI institutions (IU, Purdue, and Notre Dame) and partners from low- or middle-income countries.

Indiana and Kenyan Investigators Partner in Multi-Country Clinical Trial to Reduce Maternal Sepsis

A team from Indiana University School of Medicine and Moi University School of Medicine in Kenya led one of eight sites in seven countries contributing to the A-Plus study that showed that a single oral dose of the antibiotic azithromycin can reduce the risk of postpartum sepsis and death among women who deliver vaginally by one-third.

The Global Network for Women's and Children's Health Research conducted the trial with the results published this month in the New England Journal of Medicine. Professor Fabian Esamai and Dr. Paul Nyongesa from Moi University and Dr. Sherri Bucher and Dr. Osayame Ekhaguere from IU led the Kenya site. (Adobe Stock photo)
